Managing Engineering Information with Nuxeo

Thursday, December 18, 2pm ET / 11am PT

After an introduction on engineering challenges, see how to:

- Create Viewing and Custom Content extensions in Nuxeo 6
- View AutoCAD files within Nuxeo
- Extract and Map .dwg, .dxf, and .dwt attributes when uploading a drawing into Nuxeo
- Interact directly from AutoCAD to the Nuxeo repository
- Browse the repository, check-in, check-out from AutoCAD
- Maintain the integrity of external references (XREFs)
- Control versions and revisions between AutoCAD and Nuxeo

Presented by:

- Dick Weisinger, VP and Chief Technologist, Formtek, Inc.
- Bob Canaway, CMO, Nuxeo
