

ANNOUNCEMENT

Version Release

Engineering Data Management Solution 3.1 **Certified for Alfresco 5.1.x and 5.2.x**

EDM Module 3.1 release highlights include:

- Option to preview drawing and complete drawing in grayscale or original colors
- Support for nested raster references and nested PDF, DGN, and DWF underlays in the Manage XRefs window
- Inclusion of nested externally referenced DWG files in the complete drawing PDF rendition
- Additional transformers to convert DWT and DGN files to PNG, PDF, and JPG formats for display in Alfresco Share
- Support for additional date formats for extracting date-based AutoCAD block attributes
- New CADConverter executable for Linux and Windows
- New 64-bit CADEXtractor executable for Linux (previously 32-bit) and updated CADEXtractor executable for Windows, both enhanced for faster extraction
- Resolution of several issues

EDM Connector 3.1 release highlights include:

- Support for boolean and multi-valued properties on custom HTML-based Edit forms
- Support for DXF and DWT file formats
- EDM Connector command execution via the AutoCAD Command Line window
- Automatic lock option when downloading a drawing from the repository
- Automatic drawing synchronization check with the Open from Work Area and Upload commands to ensure your local copy matches the server copy
- The Open from Work Area command now opens any drawing in your local work area regardless of whether it has a link to the repository or not
- User interface improvements
- Support for the additional date formats on the Edit form
- Formtek EDM Module 3.1 support
- Resolution of several issues

EDM Module

- Preview AutoCAD and DGN files within Alfresco Share
- Pre-configured with Engineering Drawing and Document content types
- Thumbnail images for dwg, dwf, dxf, dwt, and dgn files
- Extract and map attributes from dwg, dwt, and dxf files
- Preview base drawing combined with its externally referenced drawings
- AMP file installation for Alfresco Content Services 5.1.x and 5.2.x

EDM Connector

- Interact with Alfresco directly from AutoCAD
- Browse the repository, check-in or check-out drawings
- Maintain the integrity of external references
- Synchronize versions between Alfresco and AutoCAD
- Works with the EDM Module content model or configure to use a custom model
- Available for AutoCAD 2013 through 2017

Contact Formtek: bizdev@formtek.com

About Formtek: Formtek, Inc. provides secure and scalable enterprise content management (ECM) and document management software and implementation services to worldwide customers and partners in the manufacturing, aerospace, defense, telecommunication, utility, government, and other markets. We build solutions on software technology platforms that are open and adaptable to complex IT environments, including Formtek | Orion Content Repository Services, Ephesoft Smart Capture, and the Alfresco Digital Business Platform.
