Formtek CAD Transform Engine v2.1 now available!

May 5, 2023

This release provides significant new features for MicroStation DGN, and is compatible with Alfresco 7.2.x and 7.3.x on Windows or Linux

The Formtek CAD Transform Engine (FTKCAD T-Engine) is a component of the Formtek *Engineering Data Management (EDM) Solution*, and provides custom transformers to convert CAD file content into high-fidelity vector PDF (preview), PNG (thumbnail), and JPG (image preview) formats for viewing in Alfresco. It also provides metadata extraction and embedding capabilities for CAD drawing formats. It can be used standalone, or with the Formtek EDM Module software.

New MicroStation DGN extraction capabilities in this release:

- Text extraction for Solr indexing
- Metadata (Tag and Item Type) extraction for storing values in mapped Alfresco properties
- Reference extraction for reference management

Also new in this release:

- Updated CADConverter executable (Customer's existing license can still be used.)
- Updated CADExtractor executable
- Direct DGN-->PDF conversion for improved preservation of DGN data
